In collaboration with Instituto Cervantes Chicago, Vicente Amigo presents his new album “Memoria de los Sentidos,” where he returns to his most traditional flamenco roots.

Recently awarded with the Gold Medal of the Fine Arts by the Spanish Government, [Vicente Amigo](#) is back with his most traditional Flamenco roots, presenting his eighth studio record *Memoria de los Sentidos*.

In this album he has gathered top active Flamenco artists such as Potito, El Pele, Miguel Poveda, Pedro el Granaino, Niña Pastori and Farruquito. Included in his new album are themes like *Requiem*, an overwhelming tribute to his master, Paco de Lucia. Vicente also experiments with a Seguriya and Tientos, two traditional *palos* from Flamenco.
