Flamenco singer [Arcángel](#) has earned a reputation as one of the most respected and innovative *cantaores* (singers). While his intricate and unique singing is his most tangible trademark, he is also celebrated for composing original works, as well as provocative re-arrangements including his self-titled debut *Arcangel*, winning the Andalusian Joven Award and the Premio Nacional Flamenco Activo de Ubeda.

With the album *Tablao*, which was recorded as three portraits of the cities of Madrid, Barcelona, and Sevilla, Arcángel brought together the fundamental history and development of Flamenco. The live performances that followed have won accolades across Europe due to his command of the material.
