The film represents Spain in the Golden Egg Film Festival in New York.

Robert and Paula are polar opposite personalities who work together in a bustling Madrid office. But one day, they find themselves alone, nearly their entire company having chosen to take vacations at the same time. During this one fateful day, the two colleagues will begin a hilarious and entangled relationship full of pitfalls, judgements, and assumptions. A wonderful romantic comedy that explores the surprising ways trust, loyalty, and appreciation can wiggle their way into our lives at the most unsuspecting times.
