

# Mixtures

Join us for a premiere of 3 exclusive works mixing dance, poetry, cinema and visual arts by American and Spanish artists working together.

*Mixtures* is a collaborative program between Spanish and American artists based in New York City and who work in different fields. The main goal is to create works that combine two artistic disciplines in order to generate new work dynamics and promote cultural exchange. The participating artists have been working for 3 months creating genuine works mixing different disciplines.

During the event, 3 exclusive works will be presented along with a conversation about the creation process, highlighting the challenges faced when working mixing different fields and cultures.
