Cao – *Psychological Cocktail
Services*, © PLRF Cabinet.

Learn to create cocktails based on MoMA's permanent collection with artist and expert psychological cocktail maker Dr. Paco Cao.

Artist and psychological mixologist Dr. Paco Cao leads a workshop that introduces participants to the process of making Psychological Cocktails.

This method transforms the way we usually consume cocktails. Instead of selecting drinks from a predetermined menu, the client fills out a tailored questionnaire based on works in the MoMA's permanent collection. According to the answers, Dr. Cao creates a personalized recipe for each client. The class culminates in a celebratory, hedonistic event at MoMA's Terrace 5 in which the artist provides Psychological Cocktail Services for the enjoyment of the participants.

This project is part of the [Psycho-Linguistic-Retro-Futuristic Cabinet](#). [Register online](#).
