

The Scientific Challenges of our Decade

ECUSA, the Association of Spanish Scientists in the USA, organizes its 3rd biannual association meeting under the title “The Scientific Challenges of our Decade.”

The Association of Spanish Scientists in the USA ([ECUSA](#), for its acronym in Spanish) is a non-profit organization for science and technology professionals that have a relationship with Spain. It was conceived by volunteers in 2014 with the goal of promoting its professionals and spreading the roles of science and technology following a cross-disciplinary approach. ECUSA aims to educate, inspire and train new generations of scientists and researchers as well as create a network to promote their career opportunities.

Its third biannual meeting will take place at various locations around New York City on October 20-22nd, gathering some of the best Spanish experts working in the United States.

THE SCIENTIFIC CHALLENGES OF OUR DECADE

- On Thursday, October 20 and Friday, October 21. At Instituto Cervantes New York, 211 E 49th St, New York, NY 10017.
- On Saturday, October 22. At King Juan Carlos I of Spain Center, 53 Washington Square S, New York, NY 10012.

The event will be held in Spanish, with individual speakers presenting in English or Spanish.
