

# VI Kerouac Festival New York

In its 6th edition, the festival brings Spanish and American poets together and combines poetry in English, Spanish and Galician with video, music and performance.

Poetry mixes with music in this meeting of poetic voices from both sides of the Atlantic. A cultural synergy as a communicating vessel between cities and countries that takes musicians and poets from one continent to another, with artistic collaborations that enrich the poetic language and its expansion towards the stage, either as a play, classical reading or pop and hip-hop music show.
