the helm of history and changed its course forever. A journey which, as many people know, was started by Magellan, but that not so many know was concluded by Juan Sebastian Elcano, the real protagonist of the story.

What motivated these sailors to undertake such a potentially perilous voyage? Their desire to reach the Maluku Islands, an Indonesian archipelago and faraway paradise filled with spices and aromatic plants. But how would they get there if the only known route was the sole privilege of the Kingdom of Portugal? Well, the answer is simple; by sailing in the other direction! What was laying in wait for these courageous men however, was much more challenging: storms, hunger, hostile tribes and all kinds of incredible trials and tribulations would hinder the progress of our intrepid voyagers.

Five ships set sail from Seville in 1519. Three years later, only one of them managed to return, bringing their adventure full circle and finally proving that the Earth was round.

ABOUT KIDS EURO FESTIVAL

Now in its 14th year, *Kids Euro Festival* is one of the largest performing arts festivals for children in America, bringing some of Europe's most talented children's entertainers to the nation's capital –and across America– physically and virtually. With in-person and online programs both for the general public and for school groups, more than 10,000 U.S. children and their families enjoy *Kids Euro Festival* programs each year.

Due to COVID-19, minimal in-person events will be held in this year's festival in order to maintain the safety of our performers and audiences. These will take the form of two Family Days and a museum exhibit for DC-area residents, while national audiences can access all online activities from October 9-30. Meanwhile, a handful of D.C.-area classrooms will be hosting virtual visits from E.U. performers and artists to learn more about European culture, history, language and more.
