

# Women's History Month 2024

VISUAL ARTS  
UNITED STATES

Fri, March 01–  
Sun, March 31, 2024

On the occasion of Women's History Month, join us in celebrating women in the arts with a selection of cultural activities.

The Cultural Office of the Embassy of Spain commemorates and highlights the vital role of women in the arts during Women's History Month. Join us for a series of enlightening cultural events celebrating the achievements and contributions of women in music, visual arts and science.

Immerse yourself in an open-air exhibition where the artist and a group of women recreate iconic photographs where male leaders were originally shown in any area of society, to generate a healthy debate and change through the power of photography.

Explore the intersection of art and science at an exhibition where The Women in Science Committee of ECUSA and an illustrator collaborate to showcase groundbreaking female discoveries and innovative interpretations.

Finally, experience the passion of flamenco music at our concert honoring the influence of female flamenco artists.
