FotoWeekDC 2017 is presented by FotoDC and [Brightest Young Things](#), with the support of SPAIN arts & culture

dedicated to the Canary Islanders community in Louisiana. Through over one hundred interviews and an unprecedented photographic archive, their work aims to make visible a forgotten chapter of our Spanish-American history.

With an eminently interdisciplinary focus grounded in a combination of cultural and insular studies, documentary photography, and anthropology, this exhibition-in-motion show the faces and voices of a community on the verge of extinction or disappearance. Divided in two parts, a photographic corpus and a video-essay, the exhibit showcases a body of work that shows the entangled nature of affects and objectivity, as well as the different ways to connect history and presence.
