

# Kids Euro Festival: Animales / Animals

Master puppeteer Pablo Vergne playfully guides everyday objects into surprising shapes on stage as part of Kids Euro Festival 2015.

There are 8.74 million species of animals on planet Earth — give or take 1.3 million species or so! In *Animals*, you'll have the chance to meet many of them, as master puppeteer Pablo Vergne playfully guides everyday objects into the most surprising shapes. Hats and foam tubes become beasts, letters of the alphabet, and more.

In a parade of color, rhythm, and movement, *Animals* wordlessly presents countless citizens of the animal kingdom for your amusement and amazement. A favorite with audiences in Israel, Croatia, India, Argentina, China, Singapore, and Ireland, *Animals* has won awards at festivals around the world.

Following its Kids Euro Festival 2015 appearance, *Animals* will travel to [San Juan](#), and finish its U.S. tour at the [Miami Book Fair International](#).

- Genre: puppet theater.
- Ages: 3-6.
