FLAMENCO SOUL Tour in New York, Washington, Baltimore & Boston

Washington DC. - Flamenco Soul offers an up-close look at the flamenco and Latin sounds coming from Spain and the Americas. Under the artistic direction of Javier Limón (Seven-Time Latin Grammy Award Winner), Flamenco Soul presents a sample of the best flamenco in the world, risky but at the same time pure, by the hands and soul of a talented, young group that sets the tempo of the sound of today.

This tour will be a journey: first, a glimpse of flamenco's oldest and most original styles; an overview of its distinct paths of evolution; finally arriving at the experimental modes of today, offering a preview to flamenco's future.

This event is part of Young Flamenco Project, an initiative of SPAIN arts & culture (www.spainculture.us) and the Mediterranean Music Institute of the Berklee College of Music in Valencia (Spain) to foster the musical creativity of young Spanish and Latin-American artists in the United States.
